PROFESSIONAL SUMMARY

Software Engineering student with a strong foundation in Full-Stack Development, Artificial Intelligence, and Cybersecurity. Passionate about building secure, scalable applications and seeking a software engineering internship to apply technical skills and contribute to innovative projects.

SKILLS

Languages: Python, JavaScript, TypeScript, C++, SQL

Frontend: HTML, CSS, Tailwind CSS, React

Backend: Django, Node.js, Express.js

Databases & Tools: MySQL, MongoDB, Git, GitHub, Kali linux

Core: Data Structures & Algorithms, OOP, REST APIs, AI, Cybersecurity

EXPERIENCE

Full Stack Development Intern | Remote

DevelopersHub Corporation | **11th May 2026 - June 22nd, 2026.**

EDUCATION

Bachelors in Software Engineering

University of Engineering & Technology, Lahore | **2024-2028**

PROJECTS

Financial Anomaly Detection and Customer Clustering | Machine Learning

- Developed an AI-powered Financial Anomaly Detection System using Python and Machine Learning to detect fraudulent transactions.

SIEM and Threat Detection | Python

- Developed a Python-based SIEM system for real-time log monitoring and cybersecurity threat detection.

Online Voting system | C++ OOP

- Developed a console-based Voting System in C++ with user authentication, candidate management, secure vote handling, and automated vote counting.

Finovia Bank Management system | C# .Net Win forms

- Developed a Bank Management System using C#, .NET, and SQLite with secure account management, transaction processing, and efficient database operations.

SwiftX Logistics Management System | C++ DSA

- Built a logistics management system using data structures and optimized algorithms for efficient routing, sorting, and delivery tracking.

Chat Application (Real-Time Messaging) | Python

- Developed a multi-user chat application using C++, socket programming, and TCP/IP with a client server architecture for real-time communication.

AI Assistant | Python

- Developed a Python-based AI assistant with voice/text interaction, command handling, and task automation.
